## SSBCC Recreation Activities Descriptions

The recreation team at SSBCC strives to offer fun, safe, and challenging activities that engage the whole person--body, mind and soul. The trained program staff is committed to providing a rewarding experience with safety as our highest priority and has worked diligently to minimize risks involved in recreation. However, there are inherent risks to participation in recreation activities including but not limited to, initiative games, high and low challenge course, outdoor education, paintball, aquatic activities and team sports.

You could experience any of the following: elevated heart and respiratory rates, uncomfortable group dynamics, climbing or descending unpredictable and possibly slick or uneven terrain, crossing narrow wires and logs, jumping, running, climbing/descending steep rock faces, traveling long distances in remote settings, carrying weight on your back and shoulders, unforeseen forces of nature or weather, any of which could result in injury/illness that could result in loss of life, limb, and/or property.

### **3.1 Team Building:**

Challenge course, Adventure Race, Climbing Gym and other team building activities challenge groups to work together accomplishing various tasks both on and off the ground. Participants will be challenged as a team to communicate, lead and follow, respect individualities and learn that they accomplish more when they work together. Participants may run, jump, climb, hold each other's weight, balance for extended periods of time, and engage in critical thinking and problem solving. A "Challenge by Choice" philosophy is presented that enhances the objective of empowering groups and individuals to set their own goals and learn at their own pace. A strong, safe and healthy environment conducive to positive learning, seasoned with an ample dose of fun is promoted. To do this, facilitators must be sensitive to your group's physical, spiritual and emotional boundaries. The belief is that this type of environment enhances the potential for personal and group development. Closed toe shoes may be required.

### **4 Trail Activities:**

Available trails span many miles of relatively mountainous terrain. Many of these trails may be traveled either on foot or mountain bike. As participants use these trails they should be aware of four things: (1) You are in the woods and could be several miles from road access, (2) You are in someone else's home (i.e. wildlife that may try to defend their home, including some poisonous insects and snakes), (3) It is important to "Leave No Trace" of your travel, in other words we ask you to leave natural features (rocks, vegetation, and animals) as you found them, pack out all man-made items, and be aware that natural surrounding may sometimes present hazards, (4) Weather is sometimes unpredictable and it is always a good idea to plan ahead and prepare. It is recommended to pack maps, proper clothing, carry water, travel with others, and to let someone know where you are going.

### **5 Waterfront:**

This includes all water-based activities; (i.e. swimming pool, Aqua Park, pedal boats, and other waterfront activities etc.) All SSBCC-sponsored aquatic activities will be supervised by trained lifeguards. Participants may be swimming, diving, wading, and paddling in open water. Participants may also be running, climbing and jumping on the SSBCC Aqua Park inflatable elements. Due to the inherent risks involved with lake activities, including possible drowning, swimming and boating participants are provided lifejackets. Participants may also be exposed to environmental elements.

### **6 Paintball:**

Paintball is another exciting and challenging team building opportunity offered by SSBCC. All participants at all times are required to wear approved paintball masks while in the playing areas. Participants are encouraged to wear long pants and long sleeved shirts, but these are not required. Closed toe shoes are required. Participants may be running, jumping, sliding, ducking and hiding in mountainous terrain that could be muddy, rocky, uneven, and possibly hazardous. Participants will also be carrying a paintball marker that uses compressed air to propel a paintball towards their opponent. The velocity of the paintball markers is set in accordance with industry standards. Yes, being hit by a paintball can be painful and may leave bruises, but that is part of the excitement of the game. It is required that all players be at least 12 years of age and that the safety equipment fit properly. The games and scenarios that the referees facilitate will encourage players to work together with their team in an energetic and rewarding quest!

### **7 Bazooka Ball:**

Bazooka Ball, while similar to paintball, utilizes a special "Nerf"-type ball propelled by a Bazooka Ball Marker, making this a fast, fun filled activity that can simultaneously be played by all ages and skill levels. Bazooka Ball gives participants the opportunity to tag opponents with hundreds of soft Bazooka Balls during day or night and experience the thrill of hyper exciting challenges! Bazooka Ball is generally played outdoors, however may be facilitated indoors. Participants may be running, jumping, sliding, ducking and hiding around structures inside a determined playing area. Closed toe shoes are recommended.

### **8 Pedal Cars:**

Pedal Cars are large go-cart type frames fitted with bicycle pedals and adjustable seats designed for fast and exciting race experiences for both children and adults. SSBCC staff will help your group organize and experience a memorable race competition on the racetrack. Participants may experience elevated heart and respiratory rates, collisions, overturning the car, and other risks related to the natural elements and/or the actions of other patrons.
